

## **ANGUS STEWART**

*Agriculture and Horticulture Senior Advisor*

Angus Stewart serves as Phoenix Life's Agriculture and Horticulture Senior Advisor. Stewart has over two decades of experience specializing in horticulture and is currently an Agricultural and Horticultural Scientist and Consultant Plant Breeder of approximately 100 commercially released plant cultivars. He is an Honorary Research Associate at the University of Tasmania and has been involved in multiple significant studies including several on the benefits of cannabidiol (CBD). Additionally, Stewart has extensive experience with plant breeding techniques of all levels and is well versed in the best practices for the production and extraction of botanical active ingredients like cannabinoids.

Stewart is the recipient of the Outstanding Contribution to Horticulture Award and the Allan Seale Award for Services from the New South Wales, Australia Nursery and Garden Industry Association. He is a published author and has written several papers and books on plant propagation and gardening. He has already created a production plan for the 50 acres of medicinal cannabis Phoenix Life plans to cultivate.
